Every care has been taken in compiling this catalogue, however
no responsibility will be taken for any errors or omissions.

**All Cattle bred on the property, only Stud Sires are
purchased from reputable breeders.**

Reflections of 59 years at Pyramid Downs

Polled Hereford Cattle originated in 1972 by purchasing in-calf commercial heifers. The stud was founded in 1979 when females joined the herd from the Broadacre Stud dispersal of polled cattle. In 1980 in-calf heifers were purchased from the Highland Stud.

Over the years calves have brought top prices at both Charlton and McNab Calf Sales and winning the Top Pen Competition on 4 occasions. Satisfaction at having achieved further success in the Show Ring in recent years has been encouraging and rewarding. Also have a selection of Benchmark Dam Awards.

Initially Bulls were sold at the Southern Districts Hereford Breeders Sale, held at Charlton Sale Yards Gore; having passed a selection panels criteria.

During February 2024 the Seven Sharp Team spent 2 days visiting the property. Filming cows with calves at foot, bulls and heifers with various other activities taking place like the big round Baler in action, baling and wrapping plus Vet Ram testing. Another point of interest was the Shed with antiques and collectables. In mid-winter, Hereford bulls calmly grazed in the background of a wedding shoot.

Currently 100 odd Breeding Cows plus Heifers are wintered, calving during September; consistently competing with the sheep, having renewed confidence, in lamb markets while Beef's future appears steady long term.

Emphasis, on Breedplan data and structural, soundness, improving cow efficiency and performance, are all given consideration. The genetic combinations contributing to increased milk figures.

The ability of these bulls, to add value to your operation is the result of breeding Polled Herefords for over 53 years. This line-up of bulls represents the consistency that we strive to achieve.

Looking forward to meeting you on Sale Day.

Helen Miller
