BENJAMIN - PHOTO TAKEN NOVEMBER 2025

ALSO FEATURING SONS OF FERDINAND, TURBO, PURDEY, BEAUDEN,
CLEOMENES, CANE, MORDECAI, ROBERT HAY, AND UTAH.

SALE WILL ALSO INCLUDE A SELECTION OF TROPHY STAGS

Location Map

Foreword

Dear Clients and Friends,

Welcome to our 43rd Annual Elite Sire Stag Sale. This year we have a variety of genetic combinations for your perusal with many industry greats featured in the pedigrees of the stags on offer.

This year we have decided to sell Titanic and Benjamin. Titanic has been part of our breeding program since he was a spiker and has produced us many good stags that feature in this catalogue and past sales. Its now timely for us to move him on as we do have a lot of progeny from him in our herd. Benjamin is a son of Robert Hay and so this limits where we can use him in our breeding program. And so again we are moving him on. We expect both stags will score 700+ IOA this season and we know both are proven sires.

In addition we have a few older stags that we expect will be high scoring trophy stags as well. Lot 3 especially, a son of Rigby with that same style of head. We intended offering him last year but he damaged his head at selection and so we had to put him aside. He's been living in our sire paddock and looks to be developing a very big multi pointed head that should impress.

Our three year olds this year have mostly been selected at velvetting stage as our selection had to happen mid November. We are sure there are going to be a few surprises as they develop with many starting to show a lot of potential at the time of writing this. We have only kept back one 3 yr old stag which is a Utah x Pinetree which we looks forward to using in our breeding program this year.

As with previous years sales, we remind you that ALL ANTLER CUT OFF THESE SALE STAGS REMAIN THE PROPERTY OF FOVERAN. The best way to ensure that you get your antlers is to transport them with their antlers on. This is also the safest option for the stags to take him home and cut his antlers off when they are hard.

You are welcome to view the sale stags at any time prior to the sale by appointment. We are having an open day on Monday 5th January between 1-3pm when the deer will be in the shed to view.

We look forward to catching up at the sale and wish you well with your purchases. Good luck with your bidding.

Kind regards

Barry Gard & Staff at Foveran Deer Park.

Conditions of Sale

Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 11.30am.

DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding).

Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

Conditions of Sale

The sale will be conducted by Rural Livestock Limited with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at 24% per annum from the date of sale.

If payment is not received within 30 days from sale, reservation of title will revert to Foveran for security purposes until account is paid in full, including interest owing.

The sale is conducted exclusive of GST.

A buyer's commission of 4% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements (no later than 24hrs prior to sale) are made with Rural Livestock Ltd.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

FOVERAN DEER PARK

Conditions of Sale cont./ Guarantee

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of Foveran Deer Park.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

TB Status

Our herd status continues to be a C10 classification.

Guarantee

All sale stags are guaranteed in terms of their genetic performance and temperament through DNA profiling. This does not include sickness or injury. Any stag that does not meet the standards mentioned above will be replaced or a full credit given to use at a subsequent Foveran Deer Park Sale.

Disclaimer

Number of antler points – owing to the lateness of stags this year at the time of selection, we have estimated the number of points we expect to see at the time of sale. Please note these are estimates only and we give no guarantee as to the actual number of points on sale day.

Mission Statement

Our motto Breeding the difference

a term that best describes our intention for our deer stud at Foveran.

By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.

- DBVs** Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.
- Velvet** By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.
- Trophy** The fastest growing component of our deer industry at present. Foveran's commitment is to not only supply high end trophies for ourselves, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long-tined, heavy, wide, "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.
- Temperament** We continually manage and evaluate the herd for this important trait.

This sale will be hosted by bidr® (bidr.co.nz) as a HYBRID ON-FARM auction, with online bidding and a live-stream available for online purchasers.

All intending online purchasers must register with bidr® using an account held with one of the bidr® partner agencies in advance of the sale date.

The bidr® team is available to assist intending purchasers with signing up and registering – please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point.

Alternatively, contact your local bidr® representative:

| 6 | 65 pts 16.54kg HA stripped | 712 |
| 7 | 67pts 20.71kg HA | 763 4/8 |

COMMENT: Robert Hay is a full brother to Henry Wider which we sold to Mike Dempsey as a three year old. Together with their sire Apex, all three stags have scored in excess of 700 IOA at 5 years. All three stags also have eye catching antler styles with the "wow" factor proving the heritability of these genetics. Robert Hay is a big bodied stag that would easily be 300kg at his peak. We recommend his progeny.

COMMENT:

Benjamin has a very similar antler style to his sire Robert Hay. His head this year is very even and multi pointed with out the droppers that he had last year. This antler style is very heritable in his progeny also. Being a son of Robert Hay, we have limited opportunities now to use him in our herd and so have decided to pass him on.

COMMENT:

Titanic has an extremely heavy antler structure that we see in his stag progeny also. We have used Titanic since he was a spiker. He has had up to 70 points of antler in the past. As you can see from the cover photo taken in November. At the time of writing we are expecting a vert big antler structure.

Comment :

Titanic has produced us some exceptional deer. His big heavy wide multi pointed antler is impressive. Dam sire Alexander was also the sire of Colossus that we sold to John Scurr as a 3 yr old. Note too McCaw (sire of Cane) on the bottom line. This stag has good well placed front tynes, big basal snags, and a long beam. He looks to have big tops coming at selection.

Dam

FOV285/10

Sire Robert Hay is also the sire of Benjamin. You can see from Benjamin that the antler style is very heritable. Dam sire Brusnis is also the sire of Brunswick and note too that Huneric on the bottom line is the dam sire of Cane. This stag has well placed front tynes. Looks to be a tidy head. Just at velvet stage at selection but indications are he is going to have multi tops.

Comment :

Sire Cane has a well recorded reputation for leaving impressive stags for our sales. Dam sire Brusnis is also the sire of Brunswick with his super long and wide antler structure. Brunswick is producing impressive progeny that you will see at future sales. Note too Titanic's sister on the bottom line. This stag has a beautiful big head. He has big front tynes, is wide, and with big tops. He wont disappoint!

Comment :

Sire Turbo was impressive and high scoring at a young age. To be expected with Nixon as his sire and sharing his dam with Leon. Dam sire Munro was a very heritable sire. His antler structure being passed on to many of his sons. This stag has big front tynes, splitting brows. He looks to be wide and nicely shaped at velvetting stage. Its too early to tell tops at selection.

Dam**FOV3221/13****Comment :**

We have decided to include this guy as we want to see how he develops. At selection he had heavy front tynes and beam but was just at velvetting stage at selection with no indication as to what his tops are like.

Comment :

This guy was scored at 495 IOA last year so we are expecting a score in the 500's this year. He has a big heavy head. He has droppers off his treys with big multi tops coming. Surplus to our own requirements. Whats his trophy value?

Comment :

This guy was scored at 484 IOA last year. This year he has a double right beam and big tops. We are expecting him to score over 500 easily.
