Ardleigh Deer 3rd Mixed Age Hind Sale 2026

Wednesday 12th August at 7pm Online Bidr Sale

Excited to have Rural Livestock running our third sale!

What a great year it has been! We were very nervous before scanning this year as the hinds were in fantastic condition leading up to mating, but we managed to pull off an excellent result with all sale stock scanned in calf. Not only that but they are scanned in the early two cycles with the majority of them being the first cycle. We programmed every hind this year to try and get the best use out of our stags and it worked flawlessly.

Our selection this year was very hard because we sold Rockpool farm, so the hind numbers had to drop dramatically. This gave me quite a unique opportunity to be very fussy on what got selected for sale. This is by far the most loaded sale we have had to date. We have something for everyone from ET progeny to donor hinds to sisters of the Horse (lot 1 2022 sold for \$135,000) and grandams of

Cambridge our super sire. Not only that but there is Sheldies relatives there as well as Halfshares niece. That is just a hint of the strength of this sale.

As usual, the semen and stag selection was chosen as though these deer are staying in the herd. We believe we have one of the strongest sire paddocks in the country and love to utilize those stags across our herd in a way that compliments the hinds genetics and the stags. Striving for that perfect stick of velvet with weight.

We wish you well and thank you for your support from everyone at Ardleigh Deer.

Registration can be done at Bidr prior to the sale.

His breeding is Shelby over Henshaw so the fawn from this should be a solid performer like 22241. Not only that but she is a massive hind! Top 3 heaviest in the sale.
