Forward

Colbion Downs Stud was established in 1991 based on 10 ewes purchased from Bill Thayer at Merino Downs near Gore.

After faithfully farming the stud for 35 years I have decided to sell entire flock

I believe that the Hamshire is one of the best terminal sire breeds due to their constitution and longevity being a strong point of the breed.

The EMA of the Hamshire is right up amongst the best of the breed with evidence of this in the 2th sire 16-24 in this sale which has an EMA of 32.92 also the Hamshire have been proven to have IMF which has now been identified as a very desirable trait for eating quality of the meat.

I would like to take this opportunity to thank all my clients that have supported me over the years buying stud ewes and rams and I wish you well with your purchases today.

I would also like to add that if anyone is looking to set up a Hamshire stud using the ewes on offer today as a base I am more than happy to offer my support and advice.

Regards

Mike Mouat
